# FAQ

## WHAT IS SCARLET SRF?

SCARLET SRF IS A NEXT-GENERATION SHORT-PULSE RADIO FREQUENCY (SRF) TREATMENT WITH MICRO-NEEDLING THAT TARGETS VIRTUALLY ANY SKIN ISSUE. IT IS ONE OF THE SAFEST TREATMENTS IN THE FIELD OF RF SYSTEMS, WITH MINIMAL TO NO DOWNTIME OR SIDE EFFECTS.

THE DEVICE CAN TIGHTEN AND LIFT SKIN ON THE NECK AND BODY, AND CAN ALSO IMPROVE COMMON ISSUES, SUCH AS SKIN TEXTURE, PORES, PHOTO-AGING, SCARS, AND STRIAE.

## WHAT IS THE RECOVERY TIME?

MANY PATIENTS RETURN TO THEIR REGULAR DAILY ACTIVITIES IMMEDIATELY FOLLOWING A SCARLET SRF TREATMENT. THERE IS MINIMAL TO NO DOWNTIME WITH SCARLET SRF. THERE IS LITTLE TO NO BLEEDING OR SENSITIVITY AS OFTEN EXPERIENCED WITH OTHER MICRONEEDLE TREATMENTS.

## HOW MANY TREATMENTS WILL I NEED? HOW LONG DOES IT TAKE BEFORE I SEE IMPROVEMENT?

SOME VISIBLE TIGHTENING RESULTS COME IMMEDIATELY AND THE RESULTS OF DERMAL REMODELING APPEAR GRADUALLY OVER TWO TO THREE MONTHS AS YOUR COLLAGEN AND ELASTIN FIBERS REGENERATE. THE RESULTS OF A SINGLE TREATMENT CAN LAST SIX MONTHS TO A YEAR FOLLOWING ONE TREATMENT. A SERIES OF TREATMENTS MAY BE RECOMMENDED TO ACHIEVE THE OPTIMUM RESULT.
